

# Worksheet Lesson 10 – Plants and global warming

1. Look at the pictures and write what causes global warming!

A black and white line drawing showing a large tree being cut down, with many tree stumps and a few remaining trees in the background, representing deforestation.	
A black and white line drawing of a large, diverse crowd of people of various ages and ethnicities, representing human population growth.	
A black and white line drawing of an industrial factory with several tall chimneys emitting thick plumes of smoke, representing air pollution from industry.	
A black and white line drawing of two cows in a field, representing agriculture and livestock farming.	

2. Make the city greener! Add trees and other plants to this drawing!

**3. Write the number of the corresponding picture next to the given words!**

DEFORESTATION	AIR POLLUTION	ICE MELTING	GLACIER MELTING
VOLCANIC ERUPTIONS	FOREST FIRES	REUSABLE BAGS	FLOOD
GLACIER	WATER LEVEL RISE	EXTREME WEATHER	TORNADO
DROUGHT	POLAR BEAR	EARTHQUAKES	WASTE SORTING CONTAINERS
